interface. New download manager interface for Internet downloads. Changes in the interface of the "Font" tab. Change in the "Name File" dialogs. When a file already exists in the list, its "Remove" button will be disabled and the option "Show the dialog again" will be hidden. You can now easily click on a row in the "Link list" to show its information in the "Link List" dialog. Windows can now close themselves automatically after some period of time has passed since the program has been running, without needing to be forced closed by you. Tasks are now automatically registered and unregistered when the user changes a radio button or adds or removes a device from the network. You can now select a task and perform one operation without performing others (e.g. disconnect or reconnect the USB device) which is impossible in other version. You can now specify a user name for the "User settings" dialog. The "Select a category" dialog has a new "Create folder" button. The interface of the "Link list" and "Font" tab have been improved. The "Link list" view has been improved. When you add a device to the network, you can now select "Other network devices" for the "Auto-select devices 82157476af
